SHOTGUN

- + Explore dynamic ball feeding in our Volley & Overhead program - for gameplay that mirrors real match situations!
- + Maximise your usage with our facility. Most bookings for the ball machine occur during the morning and forenoon hours.
- + The remote control and battery charger provide convenient access from anywhere on the court, allowing you to focus entirely on your training without interruptions
- + Manufactured with proven and high-quality components for ultimate reliability and performance.

Drill Programs with hotkeys

Discover tailored training with our six preset programs, including the popular Volley & Overhead, crafted in collaboration with expert padel coaches. Customize your sessions with our Freestyle feature to match your unique needs and preferences.

1. Warm-up: Practice forehand and backhand groundstrokes with varied lengths.

2. Volley Mix: Work on forehand and backhand volleys with varied heights and strengths.

3. Overhead: Train bandeja, Vibora, or Bajada shots.

4. Volley & Overhead: Alternate between a lob and a volley to simulate gameplay.

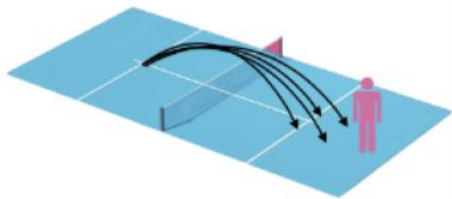

5. Game Mode: Receive two volleys followed by a lob, with the goal of maintaining control of the net.

6. Freestyle: Customise your training session to focus on specific skills, such as glass shots or serve returns.

You can adjust the frequency, power in each program to match your level.

Warm-up

1. Forehand medium
2. Backhand medium
3. Forehand long
4. Backhand medium

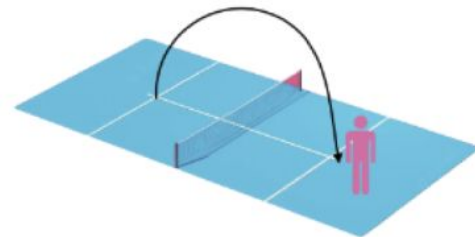

Volley Mix

1. Forehand
2. Backhand
3. Forehand higher
4. Backhand higher

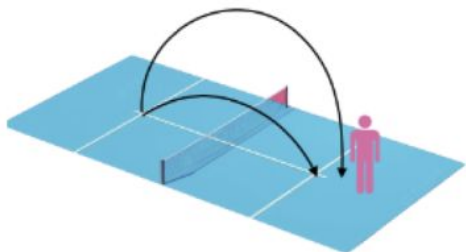

Overhead Mix

1. Make your own settings

Feature	Description
Battery	Rechargeable battery that lasts between 4-6 hours. You recharge the battery in about 3 hours.
Ball basket	Space for up to 160 balls. We recommend slightly over 100 balls so that players can take breaks between rounds.
Training Programs	Multiple preset training programs to target improvement in different aspects of the game
Engine	Bosch continuously variable high-performance motor. High performance. Bosch stepless high-performance brushless motor with highest operational reliability.
Feeding wheels	With advanced rubber compound to combat lint buildup from ball and mat, showcasing our dedication to innovative technology.
Remote control	Comes with a user-friendly remote control for easy operation and control of the machine. 6 hot key buttons for the training drills programs.
Charger	Fast charger for power outlet
Feeding Speed	Adjustable feeding speed from 10 km/h to 130 km/h for varied training.
Feeding Angles	Ability to adjust feeding angles to simulate different game positions.
Transportation and Storage	Easy to transport and store due to its compact and convenient design.

Remote Control

Start or Turn Off Remote Control

Hold down the button until the display lights up. Turn off by holding the button down for 5 seconds until the display turns off.

Start or Stop Ball Feeding

Press the Play/Pause button until you hear a sound; this will start or stop the ball feed.

Training drill Hotkeys

Press one of the 5 training programs. You can adjust the frequency of the balls or increase or decrease the feed rate for each program to suit you best.

Frequency

Adjust by increasing or decreasing the shooting rate. Start slowly and then increase gradually.

Power

This increases the speed. All programs are set to the correct power, so this is rarely used.

Hi Magnus,

Yes, we tried the machine. The lob and volley fonction is our favorite 😊

Best regards

Eva

Anders Hübner

Bollmaskinen från GameCam

Till: Magnus Jansson

12:40

Hej Magnus!

Vi är väldigt nöjda med bollmaskinen som jag har köpt av er.

Smidig och enkel. Bra program och inställningar. Väldigt bra att den är på batteri för att slippa hålla på med en massa förlängningsladd.

Ville bara att det kommer fram till er och passar på att önska en trevlig helg.

Mvh

Anders Hübner
